

RoHS / Pb-free Quality Statement

Pb-free / RoHS compliant electronics and electrical components are used to manufacture Introtek sensors. However, there is a small component of the ultrasonic transducer within the sensor that is considered to be RoHS exempt in accordance with:

Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (recast) – hereinafter “RoHS Directive”
Exemption:

7 (c) – I Electrical and electronic components containing lead in a glass or ceramic other than dielectric ceramic in capacitors, e.g. piezoelectronic devices, or in a glass or ceramic matrix compound because the technology is not available in an alternative form.

Sincerely,

Steve DiDio
General Manager
